

Would you like to participate in our educational mission?
We teach Basic Computer Literacy to adults, *in English and in Spanish*. Are you or someone you know authorized to work in the U.S. and interested in becoming an instructor for adults at **MIGH**?

Give us a call to (713) 988-6699. We are looking for people who has the knowledge, vocation, and abilities to teach Basic Computer Literacy to adults. If you enjoy helping others to help themselves to prosper in life... join our team.

If you are a people's person with teaching experience or would like to learn to be an instructor, **give us a call at (713) 988-6699.** Let us talk about the possibility of working with us to positively impacting more adults to expand their workforce skills.

MIGH is the Pioneer in the U.S. teaching in Spanish our Computer Literacy courses, since 2002. We have classes during weekdays and evenings, as well as on weekends.

We have more than 19,500 graduates and nowadays more adults need to learn how to work efficiently with a computer. Work at an employer location or from your home.

For 20 years **MIGH** has increased the pool of potential employees for the public and private sectors. They are hiring well-trained people in computer literacy. Join us in our purpose to strengthen our city's capacity to Move Forward to a brighter future for all.
