In small towns and pueblos around México, community members gather informally for Lunada, the night of full moon, to share stories, poetry, and music.

The Cultural Division of the Mexican Institute of Greater Houston will present its 7th Annual Lunada. The Houston Symphony, along with the participation of students from HISD West Side High School's *Inertia* Dance group will perform exquisite Latin inspired music.

The event is free and open to the entire Houston community. Join us with the family and friends to enjoy this concert under the moonlight.
